

Optional : Add other features

- Friends list
- Sliders images / videos
- Platform details
- Genre details
- Badges / Trophy
- Default filters in the settings

Friends list

You can add a friends list :

- Add / remove friend
- Search a friend by username or id or QR Code or email (one or multiple of those)
- have a friend list screen
- Be able to check your friends list

Sliders images / videos

You can add a slider on the game details page instead of the Image or at the bottom of the page which will show others images and / or teaser video.

Platform details

You can add the platform details :

- Add platform details page
- Add / edit / remove a platform
- Add more information on the platform and add it to the database (ex: image, date, etc)

Genre details

Same as the platform, you can add the genre details :

- Add genre details page
- Add / edit / remove a genre
- Add more information on the genre and add it to the database

Badges / Trophy

Add badges / trophy for users. Something like the one on ps4 or steam. For example a badge or trophy when he complete a game, etc.

Default filters in the settings

Have default filters in the settings that you can overright on with the filter page.
